

Are you looking for an attractive professional perspective?

Headquartered in Italy, MAE is customer-focused and quality-oriented. It has approximately 500 employees and 3 manufacturing sites (Czech Republic, Italy and Serbia). MAE's motto is "We design and manufacture advanced motion solutions that keep the world moving." Its products cover a wide range of blowers and motor types - Universal AC/DC, Permanent Magnet DC, Stepper and Brushless – that can be designed in combination with gearboxes, encoders and brakes.

Product Manager (m/f/d)

Key responsibilities:

- Product management for Blowers (based on BLDC motors or universal motors) and controls for these units
- As a product manager you are the "entrepreneur in the company" and will play a major role in shaping the success of the products
- You are responsible for innovation management, from market research and product definition to project support for new developments
- You provide the impulses and content for all marketing measures in the product launch and train sales to new products
- You accompany existing products throughout the product life cycle and require necessary adjustments if necessary
- You will work closely with Sales, Production and R&D in Italy, Germany, and Serbia

Special skills, knowledge and abilities:

- You preferably have a technical university degree or equivalent experience
- Knowledge of motor technologies or / and fluid dynamics
- Knowledge of SAP is an advantage, but not a prerequisite
- Customer-oriented, entrepreneurial, and pragmatic way of working
- Creativity, initiative, flexibility & communication skills
