

Dunkermotoren publishes new issue of the magazine "mo

With a new issue of the magazine "mo the motor technology manufacturer again publishes a series of interesting technical articles and news. The title in this issue is dedicated to the topic "Future now! Smart, connected and efficient". The company thus sheds light on an exciting topic area and provides insights into the world of Industrial Internet of Things at Dunkermotoren. Special focus is placed on the networking of smart motors, BG series. In future, these will be available throughout from 20 - 3900 W output power based on the Motor Control Platform with PROFINET, CANopen, EtherCAT, SafeTorqueOff and Ethernet/IP interface.

As in every issue, one of the market segments in which Dunkermotoren is active is also highlighted. In this issue, the Healthcare & Laboratory sector and its competencies are presented. Product Manager Matthias Utz shows how linear technology is used in diagnostics. This and other exciting topics can be found at:
